

# Roman Technoworld

## National Curriculum

In English we will be studying and writing information texts, writing and performing poetry and producing stories set in ancient Rome.

As mathematicians we will continue our curriculum work, linking with our topic where possible.

As scientists we will be investigating forces and motion and learning about the electricity, circuits and magnets. We will also examine technology through the ages.

As historians we will be studying the history of the Roman Empire and what life was like in ancient Rome.

As geographers we will be learning about the expansion of the Roman Empire. We will continue our local study work alongside this.

As design technologists we will be designing and creating Roman chariots and shields. We will also be cooking a savoury dish enjoyed in Italy!

As artists we will be exploring mosaics and creating our own.

## Community

As members of a community we will be:

Inviting members of the community to share their knowledge of cutting edge technology.

## Enquiry

Using our enquiring minds we will be:

Examining the role of technology in our world and its development past, present and future.

## Knowledge of the World

As global citizens we will be:

Examining the impact of the Roman Empire and its legacy.

## The Arts

Using our creative minds we will be:

Producing art work, textiles, models, food, dances and acting performances.
