

# Take a Tale

## National Curriculum

In English we will be studying and writing traditional fairy tales, including alternative versions from other cultures. We will use our speaking and listening skills to perform and act out play scripts.

As mathematicians we will continue our curriculum work, linking with our topic where possible.

What big bones you have! As scientists we will be examining skeletons and movement and learning about nutrition and human digestion. We will also learn basic first aid life skills.

As geographers we will be exploring fairy tale locations and where they originated and using maps to find and mark their locations.

As design technologists we will be using our sewing skills to produce fairy tale puppets. We will be baking goodies to take to Grandma's house.

As artists we will be studying the fairy tale art style of Arthur Rackham and experimenting with water colours, pencil shading and pen and ink.

As musicians we will be continuing to develop our recorder skills. We will also be composing music linked to fairy tales and cultures.

## Sports

We will be keeping active by:

Focusing on netball and other ball skills with Mr Coggins, our specialist sports teacher.

Skylark class swimming this term.

Hedgehogs and Owls developing their gymnastic skills later in the term.

## Danger

We will be assessing danger and risks through:

The Kilve residential for year 4s with many exciting challenges.

Discussing stranger danger and risks.

Our first aid training.

Visiting our new classrooms and looking at site safety.

## The Arts

We will be using our creative minds to:

Explore the theatre and the world of acting.

Study other cultures.

Take inspiration from the natural world to create our own pieces of art.

Create music that links to the many tales and cultures we're studying.
