

**Message from Mrs Kent**

Dear families, last night was first of our Autumn term Parents Evenings. This is always an important point in the year - a chance to catch up on what's going well and what we are working on with each individual child. I'd like to take this opportunity to thank you all for your continued support, caring for our children and making sure we are providing them with a broad and balanced education is a shared effort. I'd also like to thank the terrific staff team for their hard work and commitment too.

**Shelley**

**Duck Class**

This week in duck class we have been out exploring the fields and the park. The children had a wonderful time swinging on the swings, climbing and taking turns to spin the roundabout. Some of the children enjoyed exploring foam outside, using their fingers to make circles, waves and stripes.

**Robin Class**

Robins have been getting in the Christmassy spirit this week with lots of Christmas related activities, subitising Christmas trees, writing Christmas lists, as well as practising our nativity play on the stage. We have continued our learning about toys, looking at the different playground games children played in the past and what we play today.

**Deer Class**

Deer Class have been working hard this week on creating their own beginning, middle and end of their own story based on 'the girl with the yellow'. They have thought hard about their new settings and what items will be put into the bag as well as what it will turn into; they have shown some excellent creativity! Nativity practice is in full swing and we can't wait for you to see it next week!

**Rabbit Class**

This week Rabbit class have been busy rehearsing for their Nativity, it's slowly coming together!! In English we have used our model text to invent and orally retell our own stories based on a similar layout in preparation to write our own next week. In art, we have been looking at images of space and exploring colours. We then created our own space background using paint splatter.

**Squirrel Class**

It's been a lovely festive start to December in Squirrel class, as we have been learning our song for the Year 3&4 Carol Concert, which is already sounding beautiful! In the meantime, we've been continuing with our Maths unit on measurement and volume - doing lots of practical tasks to understand how maths can help us in the real world. We are writing an information text in English and learning about some very strange and interesting Stone Age creatures along the way and we're continuing with our Science topic of skeletons, which is helping us to understand more about how our bodies work. A busy few weeks ahead but thanks to you all for your continued

**Owl Class**

This week, Owls have been busy with lots of exciting learning! In D.T., the children designed their own cars of the future, using creativity and problem-solving skills. In English, they wrote diary entries inspired by our topic *Girl and Robot*, exploring the girl's feelings as she builds her robot. In maths, the class has been practising the 3, 6 and 9 times tables.

Date	Event	Details
